🌐 suganth--g

Aspiring Software Engineer with strong foundations in Core Java and Data Structures & Algorithms. Passionate about problem solving, writing optimized code, and preparing for product-based company roles.

TECHNICAL SKILLS

- **Programming Languages**
 - Core Java
 - Javascript
 - Typescript
- **Technology**
 - React.Js
 - Node.Js
 - Mongodb
 - Git & Github
- **Typing Speed -- 50 WPM (average)**
- **Tools**
 - Visual Studio Code

EDUCATION

Degree (2024–Present) B.Tech in
Artificial Intelligence & Machine Learning
Bannari Amman Institute of Technology
CGPA: 7.5 (Till S3)

HSC (2023–2024)
Sri Vinayaga International School in
Vaiyappamalai
Percentage: 60%

SSLC (2021- 2022)
Sri Vinayaga International School in
Vaiyappamalai
Percentage: 67%

PROJECTS

Stream: Real-Time Collaborative Video Platform

- Built a platform enabling multiple users to watch YouTube videos synchronously with friends using React, Node.js, and Socket.IO.
- Reduced video desynchronization by 90% through **optimized WebSocket event handling** and Redis session management.
- Tech: React, Node.js, Socket.io, Typescript
- Duration: 2 months

Campus Management System

- Developed a centralized dashboard tracking 100+ staff members, replacing manual processes and reducing data retrieval time by 60%.
- Implemented JWT authentication with role-based access control for 3 user tiers (admin, staff, supervisor). Tech: Node.js, MongoDB, JWT
- Duration: 1 month Github

UniquePaths: Algorithm Visualization Tool

- Created an interactive web app to visualize and solve **grid-based pathfinding** algorithms (e.g., Unique Paths problem) Improved user engagement by designing an intuitive UI with Tailwind CSS. Tech: React, JavaScript, Styled

CERTIFICATIONS

- The Complete 2024 Web Development Bootcamp
- Build Responsive Real-World Websites with HTML and CSS

ACHIEVEMENTS

- Instructor, BIT Campus: **Mentored 50 first-year students in Fundamentals of Web Development** during a 15-day program, achieving 100% completion rate and positive feedback. LeetCode: Solved 400+ problems in data structures and algorithms.

SOFT SKILLS

- Collaboration: Led a team of 4 in delivering an academic mini-project on time. Attention to Detail: Debugged and resolved lots of edge-case issues in the frontend Campus Management System. Adaptability: Adapted React-based design patterns (e.g., component architecture) to streamline Vue.js implementation, reducing development time by 30%.

LANGUAGES KNOWN

- TAMIL - R,W,S
- ENGLISH - R,W,S

I Suganth G, hereby declare that the above written particulars are true to the best of my knowledge

Place: Sathyamangalam

PROJECTS WORKING ON

ClassNotes: Collaborative Note-Taking Platform

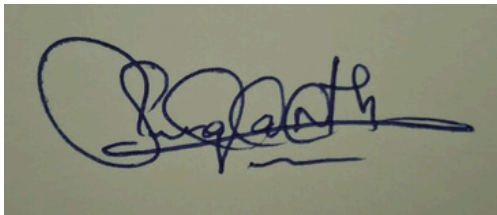

- Objective: Building a web app for students to share course notes in real-time. Current
- Progress: Developing core functionalities with React designing a markdown renderer.

Stream: Real-Time Collaborative Video Platform (Enhancements)

- Objective: Refactoring codebase to improve scalability, fixing edge-case bugs, and adding real-time chat moderation features.
- Current Focus: Optimizing Socket.IO event handling to reduce latency by 20% and implementing user role-based permissions.

AREAS OF INTEREST

Frontend Development
User Experience
